For commercial banks, SPV trustees, and digital asset custodians

Institutional cash custody, DACA banking, and vault infrastructure

Partner with Eko Securities Exchange to provide bank-controlled DACA lockboxes, SPV trusteeship, fiat ramps, and MPC digital custody.

Core banking and custody roles in the exchange's stack

Eko Securities Exchange separates exchange execution from asset safekeeping, relying on regulated commercial banks, licensed SPV trustees, and institutional custodians so client funds are never commingled on its corporate balance sheet:

- **DACA lockbox banking (cash safekeeping):** Commercial banks hold segregated accounts governed by irrevocable deposit account control agreements (DACAs), where upstream settlement wires land and remain ring-fenced for automated smart contract waterfall payouts.
- **Fiat on/off-ramp and reserve banking:** Regulated banking partners facilitate USD, EUR, and local-currency wire settlement for institutional fiat investors and PSP treasury off-ramps alongside 1:1 fiat-backed stablecoin reserves.
- **SPV trusteeship (legal title safekeeping):** Licensed corporate trustees administer the segregated, bankruptcy-remote special purpose vehicles holding perfected legal title to assigned receivables.
- **Institutional digital asset custody:** Regulated digital custodians (supporting multi-signature and MPC vault architectures such as Fireblocks, BitGo, or Privy) safeguard cryptographic keys, SPV vault tokens, and investor security tokens.

Commercial revenue streams for banking partners

Partner role	Monetization and balance-sheet benefits
DACA lockbox bank	Recurring DACA administration fees, high-velocity institutional deposit balances, and read-only bank feed API integration.
Correspondent and FX bank	High-frequency USD/EUR wire clearing and regulated FX conversion volume as PSPs recycle liquidity multiple times per week.
Digital custodian and trustee	Assets-under-custody (AuC) fees on tokenized tranches, SPV administration retainers, and institutional wallet infrastructure fees.
